PROFESSIONAL SUMMARY

Full-stack developer with experience building scalable web applications using React.js, Node.js, Express.js, MongoDB, FastAPI, and AI-powered systems. Skilled in designing REST APIs, database schemas, authentication systems, and LLM-integrated applications.

PROJECTS

SmartDraft AI — AI Email Reply Assistant

Python, FastAPI, Groq API, Gmail API, React.js, OAuth 2.0

2026

- Built an LLM-powered email assistant using **Groq API** and **FastAPI** that classifies emails by intent and generates context-aware reply drafts with persona-specific prompt engineering.
- Integrated **Gmail API** with OAuth 2.0 and developed a React dashboard for human review, using an LLM-as-a-judge pipeline to evaluate tone, completeness, and policy adherence before sending replies.

CampusLaundry — College Laundry Management System

React.js, Node.js, Express.js, MongoDB, JWT Authentication

2026

- Designed a **7-collection MongoDB schema** and built a multi-role (Student, Staff, Supervisor) laundry management system with JWT authentication, registration-number login, and real-time order tracking.
- Implemented hostel-wise analytics using MongoDB aggregation pipelines along with issue reporting and staff rating linked to individual laundry requests.

Velocity — Real-Time Ride Booking & Navigation Platform

React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Leaflet.js

2026

- Built a full-stack ride booking platform with responsive React UI, real-time route visualization using **Leaflet.js**, and REST APIs secured with JWT authentication.
- Deployed the frontend on Vercel and backend on Railway through a Git-based workflow, enabling live route rendering and real-time ride management.

TECHNICAL SKILLS

Languages: C++, Python, JavaScript, TypeScript, HTML5, CSS3

Frontend: React.js, Next.js, Tailwind CSS

Backend: Node.js, Express.js, FastAPI, REST APIs

Databases: MongoDB, PostgreSQL, SQL

Gen AI & LLMs: Gemini API, Prompt Engineering

Developer Tools: GitHub, Docker, Postman

RELEVANT COURSEWORK

Data Structures & Algorithms • Object-Oriented Programming • Database Management Systems • Computer Networks • Operating Systems • Computer Graphics

LEADERSHIP

Technical Club

July 2024 – Present

Joint Secretary, Army Institute of Technology, Pune

- Led and coordinated a team of 10–15 student volunteers for planning and executing technical events, workshops, and competitions.
- Managed task allocation, event logistics, and cross-team communication, ensuring smooth execution of club activities.

ACHIEVEMENTS

- Prime Minister's Special Scholarship Scheme (PMSS) Scholar
- Solved 400+ Data Structures and Algorithms problems across coding platforms.

EDUCATION

Army Institute of Technology, Pune

Bachelor of Engineering in Information Technology | Passing Year: 2027–28

July 2024 – Present

CGPA: 8.42/10
